Innovator Café

Scientists Turned Entrepreneur

Panel Discussion:
Experiences and Lessons-learned

22 June 2022 | 16 to 17 (CEST) | Online Webinar

Daniel

Esa

Panel
Discussion

Are you interested in building a start-up to further develop your technology but have no clue on how to move forward? Are you looking for role-models and advice from people who have been there too?

In this SPARK Europe Innovator Café our panelists, who have been bench-scientists not too long ago, will share their personal experience as a scientist turned entrepreneur and give insights on valuable lessons learned and pitfalls they met along the way.

Daniel Kvak is a Ph.D. student of Masaryk University in Brno and CEO of Carebot, the start-up company developing a computer vision-based assistance system for healthcare and awarded by Forbes, Pfizer, Roche, and Deloitte.

Professor, Vice Dean for Education **Esa Räsänen** from Tampere University is a theoretical physicist, innovator and solution creator. Esa has utilized his expertise in computational physics in creating novel solutions for analyzing cardiac electrical activity.
